CLEO THEA L. TIGLAO

(63) 975 846 2351 **ctltiglao@gmail.com** **Matandang Balara, Quezon City**

SKILLS

- Mobile application:
  - Android: Kotlin, Java
  - iOS: Swift
  - Cross-platform: Flutter (Dart), React Native (TypeScript)
- Desktop application: .NET (C#), VB.NET, Python
- Web application:
  - Front-end: HTML, CSS, JavaScript, .NET (C#)
  - Back-end: Node.js
- Data-analysis: Python, R
- Traffic modeling:
  - 2D/3D models: SketchUp, AutoCAD
  - Simulation: LEGION Simulator

SPEAKER ENGAGEMENT

UN/Indonesia Workshop on the Application of GNSS
Jakarta, Indonesia
Nov 18, 2025
Development of Smartphone-Based National Road Monitoring and Evaluation for Philippine Roads

Ateneo de Naga University
Online (Zoom)
Nov 21, 2025
Smart Transport Survey: Capturing and Visualizing Travel Time and Delay Data

CERTIFICATION

Software QA Automation Testing Workshop
Dec 7-8, 2025
MSTCONNECT via Zoom

PROFILE

A versatile software developer with over 6 years of experience specializing in native and cross-platform mobile application development (Android, iOS, Flutter, React Native), desktop and web applications, and back-end solutions. Skilled in delivering end-to-end systems with strong expertise in UI/UX design, API integration, and database management.
Experienced in traffic modeling, data analysis, and simulation, with a proven track record of contributing to large scale infrastructure and transportation projects. Highly adaptable, detail-oriented, and collaborative, with a commitment to continuous learning and professional growth.

WORK EXPERIENCE

STRIDE Consulting Mar 2019-Present
Software Developer | Traffic Modeler

- Develop, design, and maintain mobile applications and web application with a focus of user experience.
- Implement and optimized databases to support scalable and secure applications.
- Collaborate across the full-development lifecycle from UI/UX design and API integration to deployment and maintenance.
- Deliver end-to-end solutions by combining front-end development, server-side programming, and database management.
- Design and create technical drawings, designs, and models.
- Build computer-based models to represent traffic flow in real scenarios.
- Collect and analyze survey data.
- Perform other duties as may be required by the projects.

KEY PROJECT

Location: DJMV Management Consultancy Inc./Department of Public Works and Highways
Project: DPWH Travel Time and Delay Survey N1 and Nautical Highway
Software Application Developer Mar 2025-Jan 2026

- Develop, design, and maintain Android mobile application using Java language.
- Collaborate with back-end developers to integrate APIs and ensure seamless data flow.
- Ensure the technical feasibility of UI/UX designs.
- Optimize applications for maximum speed and scalability.

31st Annual Conference of the Transport Science Society of the Philippines
Dec 4, 2025
SEARCA Complex, U.P. Los Baños, College, Laguna

Agile Scrum Project Management Jira & Confluence Workshop
Oct 4-5, 2025
MSTCONNECT via Zoom

QGIS Workshop
Sep. 26, 2025
MSTCONNECT via Zoom

Innovation Day Manila
Sep 9, 2025
Seda Vertis North, Quezon City

Ethical Hacking and Pentesting Crash Course
Apr 19-20, 2025
MSTCONNECT via Zoom

Software QA Manual Software Testing
Apr 19, 2025
MSTCONNECT via Zoom

Caregiving NCII
Jun 2024-Mar 2025
Asia Pacific Caregiver and Healthcare Training Center, Inc.

OpenPaths, CUBE/DYNAMEQ/ AGENT Workshop
Jan 24, 2025
NCTS, University of the Philippines, Diliman

Citilabs Latest Innovation in Mobility Analytics
Oct 3-4, 2019
NCTS, University of the Philippines, Diliman

- Translate UI/UX design wireframes into high-quality code.
- Conduct user testing and gather feedback to improve user experience.

Location: SafeTravelPH Mobility Innovations Organizations, Inc.
Project: Parasol Platform Development
Front-end Developer Sep 2024-Apr 2025

- Design, develop, and maintain web and mobile applications, and dashboards with a focus on user experience.
- Collaborate with back-end developers to integrate APIs and ensure seamless data flow.
- Ensure the technical feasibility of UI/UX designs.
- Optimize applications for maximum speed and scalability.
- Translate UI/UX designs wireframes into high-quality code.
- Implement responsive designs to ensure applications work across various device and screen sizes.
- Conduct user testing and gather feedback to improve user experience.

Location: STRIDE Consulting, Inc./San Miguel Corporation Mass Rail Transit 7, Inc.
Project: Traffic Impact Analysis (TIA) of the MRT-7 Project
Traffic Modeler Mar 2024-N/A

- Design and create technical drawing, designs, and models.
- Build computer-based models to represent how the pedestrian flow in real scenarios.
- Assess the impact of traffic of pedestrians inside each station.
- Collect and analyze survey and simulated data.

Location: STRIDE Consulting, Inc./Metro Pacific Tollways Corporation (MPTC)
Project: Project Majestic Philippine Toll Road Assets
Junior Data Analyst Mar-Apr 2024

- Research and compile necessary data that required by the project.
- Produce AADT of each expressway for the year 2024 up to 2026.
- Create a zoning system for each municipality that is covered by the project.
- Trace the expressways route covered by the project.
- Plot and draw land area of land development covered by the project.

Computer System Servicing NCII
Oct-Nov, 2018
Quezon City Lingkod Bayan Skills Development Center, Fairview

Internship
Jul-Nov, 2017
STRIDE Consulting, Inc.

REFERENCE

Mrs. Ederlyn S. Verona
(63) 917 817 2067
Senior Software Developer
STRIDE Consulting, Inc.

Location: STRIDE Consulting, Inc./Public Estates Authority Tollway Corporation
Project: Traffic Demand Evaluation Study for CAVITEX
Junior Data Analyst Nov-Dec 2023

- Analyze the popular times of the data from Google Traffic.
- Analyze the traffic alerts from Waze data depending on date and time range.
- Determine traffic demands during peak and off-peak time.
- Determine the free flow speed for each road the projects covered.
- Determine the saturation flow rate.

Location: City Government of Puerto Princesa Palawan
Project: Development of Information System on Transport Operation in Puerto Princesa (ISTOPP)
Information Technology Officer II Nov-Dec 2022

- Develop, design, and maintain iOS mobile application with a focus on user experience.
- Collaborate with back-end developers to integrate APIs and ensure seamless data flow.
- Ensure the technical feasibility of UI/UX designs.
- Optimize applications for maximum speed and scalability.
- Translate UI/UX design wireframes into high-quality code.
- Implement responsive design to ensure applications work across various devices and screen sizes.
- Conduct user testing and gather feedback to improve user experience.

Location: STRIDE Consulting, Inc./Manila Water Co. Inc.
Project: San Mateo Sewerage System Traffic Management Plan (TMP)
SketchUp Specialist Nov 2021-Mar 2022

- Develop basemap and road inventory for San Mateo, Rizal.
- Develop 3D basemaps for San Mateo, Rizal.
- Contribute to development of microsimulations, simulations, and analysis.

Location: National College of Public Administration and Governance/University of the Philippines, Diliman
Project: Development of a Participatory Spatial Planning and Collaborative Decision Framework for Active and Public Transportation in Metro Manila
Computer Programmer II Jun 2021-Jan 2022

- Develop, design, and maintain iOS mobile application with a focus on user experience.
- Collaborative with back-end developers to integrate APIs and ensure seamless data flow.

- Ensure the technical feasibility of UI/UX designs.
- Optimize applications for maximum speed and scalability.
- Translate UI/UX design wireframes into high-quality code.
- Implement responsive designs to ensures applications work across various devices and screen sizes.
- Conduct user testing and gather feedback to improve user experience.

Location: STRIDE Consulting, Inc./Manila Water Co. Inc.
Project: Mandaluyong West Sewerage System Traffic Management Plan (TMP)

SketchUp Specialist Apr-Dec 2021

- Develop basemap and road inventory for Mandaluyong West and catchment.
- Develop 3D basemap for Mandaluyong West and catchment.
- Contribute to development of microsimulations, simulation, and analysis.

Location: OVPAA-ERF/University of the Philippines, Diliman
Project: EDSA Bus Efficiency Analysis and Monitoring System (BEAMS): Promoting Bus Fuel Efficiency through Promotion and Incentivization of Eco-Driving Practices for Bus Operations along EDSA

Computer Programmer II Nov 2019-Jul 2020

- Develop and design iOS mobile application with a focus on user experience.
- Collaborative with back-end developers to integrates APIs and ensure seamless data flow.
- Ensure the technical feasibility of UI/UX designs.
- Optimize applications for maximum speed and scalability.
- Translate UI/UX design wireframes into high-quality code.
- Implement responsive designs to ensure applications work across various devices and screen sizes.
- Conduct user testing and gather feedback to improve user experience.

Location: STRIDE Consulting, Inc./Tricycle Regulation Division Quezon City
Project: Determine of Route Measure Capacity (RMC) for Tricycle Operations in Quezon City

Device Installer | Data Encoder Sep 2019-Jan 2020

- Device installer to determine tricycle route and measure passenger capacity.
- Data encoder of tricycle operation survey.

EDUCATION

2014-2018 Bachelor of Science in Information Technology
Our Lady of Fatima University, Quezon City

RESEARCH & PUBLICATION

Unpublished Thesis
Title: PALA-IS-DAAN: A Pond Monitoring System
Location: Our Lady of Fatima University, 2018
